

What is our Ocean Passage Making Class About?

Yacht Preparation and Departure

Use Celestial Navigation

Catching Dinner While Underway

Learn skills required to safely sail offshore for an extended period. 7-10 day live aboard classes, which provide students with an understanding of yacht preparation for ocean sailing, course planning, working a watch schedule, use of celestial navigation, weather analysis, storm avoidance, heavy weather sailing techniques including use of drogue and storm jib, use of radar, techniques for crossing the Gulf Stream, and other elements involved in ocean passage making. All classes taught by an ASA certified and USCG licensed captain.

Norfolk, VA to Bermuda May 29-June 4, 2021 with optional three day trip from Rock Hall, MD to Norfolk, VA (\$399 adder). Distance- 680 nautical miles. Instructor-Captain Mike Brown Price- \$2499 Sold out.

Bermuda to Norfolk, VA June 12-18, 2021 with optional three day trip from Norfolk, VA to Rock Hall, MD (\$399 adder). Distance- 680 nautical miles. Instructor- Captain Mike Brown Price \$2499.

Price includes all on board food and beverages for passages. Same price with or without ASA certification. No discounts apply to ocean passages. Prerequisites for ASA108 are ASA101- ASA107. Students who have ASA101-ASA105 but not ASA107 can get certified to ASA106 Advanced Coastal Cruising or they can also take ASA107 and receive both ASA106 and ASA108 certification.

Our ocean passages are way beyond what other schools offer so students can earn either ASA106 or ASA108 certification or both ASA106/108 on any of our ocean passages.

Students who don't already have ASA105 and ASA107 can do a home study and then take the exams during the class for just \$299 more for each home study. Although not required some students do a home study for ASA119 Marine Weather to help prepare them for the passage.

Captain Tom Hamilton

Prerequisites: In order to get certified to ASA108 Ocean Passage Making students must have already completed ASA101, ASA103, ASA104, ASA105, ASA106, and ASA107. Students who have ASA101-ASA105 but not ASA107, can get certified to ASA106 Advanced Coastal Cruising. It is also possible to participate in the ocean passage making classes as a non ASA Certification candidate. Students without the required ASA prerequisites must submit a sailing resume showing that they are well prepared for an ocean passage.

Our Ocean Passage Making Classes are real passages and students are subject to the same constraints that anyone would experience on an ocean passage.

Ocean passages are subject to weather and boat repair related delays. If our weather router says we need to depart at a later date due to adverse weather, we could be delayed until the weather clears. It is less likely but possible that we could experience some boat related issue and be delayed while repairs are made. Before signing up for an ocean passage potential students should make sure their schedule is flexible enough to allow them to depart and/or arrive later than our published schedules. No refunds are given due to weather or boat repair related delays.

By paying for an ocean passage making class you acknowledge that you have been informed of this policy.
